SUMMARY

I am a CSE student specializing in AI/ML with a strong foundation in programming languages like Python, C , HTML, and CSS. I'm passionate about software development and solving complex problems. My internships have equipped me with practical skills in AI and Python development, enhancing my ability to contribute to innovative tech projects. Seeking more hands-on opportunities to leverage my skills

EXPERIENCE

AI And ML Expert • Internship

IBM

06/2024 07/2024 Vir tual

Internship conducted under IBM SkillsBuild and CSRBOX focused on AI and ML

- Provided hands-on experience in AI and machine learning through a 4-week internship
- Gained industry insights and developed essential technical skills in AI ML

Python Development • Internship

Keltron Knowledge Centre

05/2024 05/2024 Kozhikode

Internship focusing on advanced Python development

- Covers advanced topics in Python including data types, loops, functions, OOP, file handling, and exception handling
- Explored Flask/Django for web development, automation, and performance optimization

EDUCATION

B.Tech

Cochin University College Of Engineering Kuttanadu

08/2023 05/2027

GPA **8** / 10

Higher Secondary -Computer Science

Palora Higher Secondary School

2020 2022

GPA **98** / 100

KEY ACHIEVEMENTS

Decentralized Storage dApp Development

Developed a decentralized storage dApp using Stellar Blockchain, IPFS, Rust & Freighter ensuring secure uploads and account management

LANGUAGES

English

Proficient

SKILLS

English language(spoken and written)
Python
C /C++
Basic Java
AI/ML
HTML/CSS
Javascript

INTERESTS

College Basketball Team Player and NSS Member

Active participation in college basketball and involvement in NSS

COURSES

Advanced Computer Networks (Jan 2025 - Present)
IIT Indore, IIT Gandhinagar (Virtual)
An advanced course covering high-performance network design, data center networking, software-defined networking, and network virtualization. Includes practical programming assignments for hands-on experience with Unix/Linux systems.

Advanced Computer Networks (Jan 2025 - Present)
National Institute of Technical Teachers Training and Research (Virtual)
Covers core networking concepts, theories, and algorithms. Provides hands-on experience with network devices and tools, enabling the design and implementation of computer networks
